Korea and the United States of America**

[Enforcement date: January 1, 2013] [Partly Revised on December 18, 2012, Ministry for
Food, Agriculture, Forestry and Fisheries Public Notice No. 2012-302]

Chapter 1. General Provisions

Article 1 (Purpose)

This Guideline aims to stipulate import management rules such as selection of importers, allocation of in-quota quantity for each importer, and standards and procedures for Tariff Rate Quota (TRQ) recommendation for agro-fisheries products that are to enter free of duty under the TRQ scheme in accordance with the Free Trade Agreement between the Republic of Korea and the United States of America (hereinafter referred to as "Korea-US FTA").

Article 2 (Definitions)

For the purpose of this Guideline:

1. "Tariff Rate Quota" means a certain quantity of each commodity within the set annual quota allowed to enter free of duty under the Korea-US FTA.
2. "Tariff Rate Quota Recommending Organization" means the Minister for Food, Agriculture, Forestry and Fisheries. "Agency for Tariff Rate Quota Recommendation" (hereinafter referred to as "the Agency") means the head of the agency delegated to allocate or recommend TRQs on behalf of the Minister for Food, Agriculture, Forestry and Fisheries in accordance with this Guideline.
3. "Import Rights Auction" means the method of auctioning the import rights for the in-quota quantities to traders, and allocating them to successful bidders.
4. "Auction Fee" means the amount to be paid by the successful bidders expressed in money terms within the tariff rate difference range for the import rights of in-quota quantities of the TRQ products.

5. “Allocation of Import License” means the method of distributing the rights to import in-quota quantities to historical or new importers either on a first-come first-served basis (or by the order of the applications registered), or by other specific criteria such as past import performance.

6. “First-come first-served basis” means that commodities enter free of duty up to the quota provided in the Agreement, according to the chronological order of customs clearance, without the process of TRQ allocation by the Agency. These products will be regulated pursuant to Article 4 Paragraph 2 of the Enforcement Decree of the Special Act on Customs Law for the Implementation of Free Trade Agreement.

Chapter 2. Tariff Rate Quota Allocation and Administration of Conventional Tariff

Article 3 (Products, Allocation Method and Agencies)

Article 6 (Recommendation Limit for Tariff Rate Quotas)

① The recommended TRQs must be within the annual quotas as provided in Tables 1 and 2.

② The Minister for Food, Agriculture, Forestry and Fisheries may, where deemed necessary for stabilizing the domestic supply and demand and for the smooth administration of TRQs, etc., allow the Agency to administer and set a limit to the quantities of each recommendation or to make an early recommendation for TRQ

quantities that are to receive import clearance the following quota year. Such a case must be in accordance with the provisions stipulated in the Korea-US FTA.

Article 7 (Application for Tariff Rate Quota Recommendation)

The importers with allocated TRQs pursuant to Article 5 shall submit the following documents to the Agency:

1. *Application Form for the Korea-US FTA Tariff Rate Quota Recommendation* (Appendix Form 1); and
2. Other documents announced as required by the Agency.

② Notwithstanding Paragraph 1 above, in the case of soybeans for human consumption, the Korea Agro-Fisheries & Food Trade Corporation (hereinafter referred to as "CEO of aT Corporation") shall issue a Recommendation in accordance with the import license allocation decision of the association of soybean processors and notify Korea Customs Service about the details of the Recommendation.

Article 9 (Validity Period of a Recommendation)

① The validity period for a Recommendation shall be 90 days and may not be carried over to the next quota year. Notwithstanding, the validity period for oranges shall be from September 1st of the year the public auction was held until the last day of February in the next calendar year. The validity period for soybeans for human consumption shall be from the time import licenses are allocated until December 31st of the next calendar year.

① An importer who wishes to extend the validity period of the Recommendation shall submit the *Request Form to Extend Validity Period of Recommendation on Korea-US FTA TRQ* (Appendix Form 3) to the Agency prior to the expiration date of the Recommendation. In this case, the initially issued Recommendation must be attached to the request form.

② Where the request form described in Paragraph 1 above is submitted for reasons deemed appropriate, such as customs clearance delay, the Agency may reissue the Recommendation with the validity period extended by up to 30 days.

③ Notwithstanding Paragraphs 1 and 2 above, the validity period of Recommendations for oranges shall not be extended beyond the last day of February of the year following the auction; and the extension of validity period of Recommendations for soybeans for human consumption shall not be permitted.

④ The reporting period for importation of recommended products may not exceed the execution year, unless a Recommendation was issued in advance for the quota to be imported the following year pursuant to Article 6 Paragraph 2.

Article 11 (Division of Recommended Quota)

① The Agency may, where deemed appropriate, divide the initially recommended quota and reissue separate Recommendations for each divisional quantity upon request by the importer who has been issued a Recommendation by the Agency.

3. The importation of recommended quota becomes impossible for any other reasons.

Notwithstanding, in the case of soybeans for human consumption, the Recommendation must be returned by April 1st of the year import licenses were allocated.

② In case the importer who has received the Recommendation intends to import only part of the allocated quota and surrender the rest, such importer shall notify the Agency immediately.

③ The Agency must recommend the unused in-quota TRQs resulted from the reasons provided in Paragraphs 1 and 2 above, to historical or new applicants within that quota year. Notwithstanding, for barley, malt, malting barley, maize starch and dextrin that are separately stipulated in the Korea-US FTA, a new Recommendation for the unused quantities of the allocated quota shall be issued to applicants on a first-come first-served basis within 45 days from the date the initial Recommendation is returned.
