

An Overview

A family-owned US company, Caru was founded by Adrian and Pamela Pettyan, because of their beloved dog, Karu.

Today, CARU offers a complete family of grain free stews and treats for pets

Now customers have two options when they're shopping for the best tasting safe food they can serve their dogs – Classic and Daily Dish. Here's what these lines have in common

Kick the Can with CARU....Here are just some of the benefits of choosing CARU boxes for your dog

SMART STARTS WITH THE BOX

Tetra Recart® is a little revolution that starts with the box: A little choice that's a big win for smarter living. Small changes, big results.

1 ROOTS

RESPONSIBLY GROWN CARTON.
65% of Tetra Recart packages are made from selectively harvested and regrown trees.

2 TRAVELING LIGHT

Tetra Recart dramatically lowers shipping costs.

1 One truck of empty folded soup cartons equals...
9 nine truckloads of empty soup cans. Annual estimated fuel savings each time this occurs: \$160,000²

3 SHELF TALKIN'

Tetra Recart takes up less space.

vs. Pouch **84% LESS SPACE**
vs. Can **40% LESS SPACE**
vs. Glass Jar **64% LESS SPACE** on shelf.

4 POINT OF PURCHASE

Nearly **3 out of 4**

Millennials would choose a leading brand of soup packaged in a carton³ over a can. More than one-third of U.S. consumers overall are buying soup and broth in cartons.

5 COUNTER INTELLIGENCE

Tetra Recart packages are **easy to store, easy to open, easy to use & re-closable.** You only use what you need. It's a win-win-win-win.

No can openers need apply.

More than **40%** of households have cartons in their pantry today. Cartons are the fastest growing format in prepared foods.⁴

44%

of households in the U.S. can recycle cartons. To find out more, visit www.recyclecartons.com.

6 REDUCE, RECYCLE, REPEAT.

60% LESS WASTE

in landfills vs. the steel can, even after taking into account recycling.⁵

Tetra Recart uses **ONE-THIRD OF THE PACKAGING** to deliver the same amount of product compared to steel cans.^{1,6}

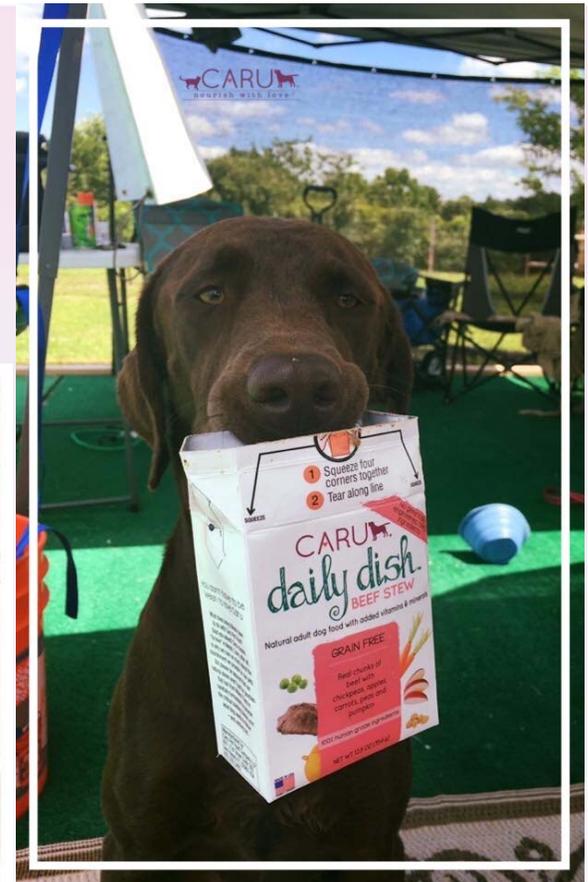

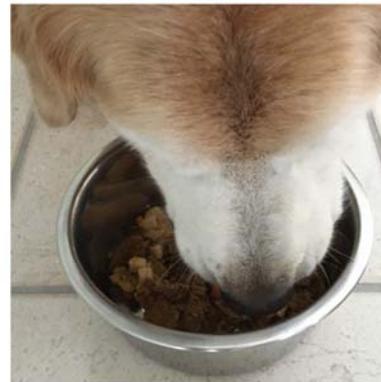

6 LITTLE REASONS THE BOX ROCKS
